RESUCE FROM REJECTION

Rejection is something we all experience to one degree or another and the reality is it hurts and it affects how we perceive ourselves, our lives, other people and even God. Being rejected or living with feelings from past rejections can steal our enjoyment of life and leave us feeling depressed or with a sense of not belonging which can even drive us to reject others. But God wants us to know that we are totally acceptable to Him, despite our pasts, our fears and our failings, and He longs to heal our hurts and help us move forward into a full and certain knowledge of being loved.

Exploring the biblical principles of how rejection sits at the heart of sin, from the fall of mankind through to today, we will focus on God's rescue plan that offers us love, acceptance and freedom instead of bitterness, pain and spiritual constriction. But this acceptance cannot be earned by our good works and we will also explore how humility and reality sit at the heart of finding the acceptance we yearn for. If you feel like you are living in a struggle of needing affirmation, feeling lonely or isolated or just don't fit in or belong, then this course will offer you hope and a way forward into a life of acceptance and belonging as you firmly take your place within the family of God.
